

BEING IN LOVE WITH LIFE

“To be creative means to be in love with life. You can be creative only if you love life enough that you want to enhance its beauty, you want to bring a little more music to it, a little more poetry to it, a little more dance to it, a bit more paint to it.”

YOUR CREATIVE UNIQUENESS
without judgment & expectations
Whatever it is
SAY 'YES'

You say you are not creative ? Guess what - we all are creative ! In our society we have just come to this place to think of creativity solely being about performance or fine arts. But creativity is limitless - it is everything we do when we do it mindfully and give it our full attention. Creativity gives birth - birth to something that has not existed before we created it. And it doesn't matter if it is art, or a computer program , or being a good project manager, a creative mother that keeps her kids busy with good stuff, a home cooked meal, even when shopping for food we can be creative. Once we realize this we will find ourselves with a different mindset on how to go upon our days - because the execution of creativity makes us happy as it gives our doing purpose and meaning.

When you work on this Mandala, let go of any expectations and just start where your intuitions leads you. Give yourself the ALLOWANCE to (re)discovery your creativity and allow what wants to shine through you ? What do you want to create for your upcoming future ? Listen to your inner voice and allow what's coming forth. Recycle the old and create the new

Enjoy !

With Love
