

VISIONS

“When I dare to be powerful, to use my strength in the service of my vision, then it becomes less and less important whether I am afraid.”

Audre Lorde

Would have anyone told me about that journey that has got me to where I am today - I would have grinned about the prophecy - how would that ever be possible..... Actually , I had such a prophecy many life-momentums ago - and I sure gave it such grin as it was just sounding so surreal and unrealistic

Remember these moments in life when you were day dreaming - you let go of trying to be as expected - and you start dreaming your life - enjoying the little vision clouds passing by - light like a feather.

Today I see that something in this very moment are so deeply connected with us that this dream becomes a seed. Often without knowing we are taking care of this seed - and than one day - you have manifested it

There will always be challenges - but if it is following your visions - one has to trust. Trust yourself . Don't be shy about your visions . What are your visions ?

Enjoy !

With Love
